Commissioner for Patents  
Washington, D.C. 20231

Sir:

Prior to initial examination, please amend the above-captioned case as follows.

IN THE CLAIMS (amended set attached to International Preliminary Examination  
Report)

Please amend the claims as follows:

3. (Amended) Implant according to claim 1, characterized in that the conically  
tapering portion is arranged with materially reduced thread parts with full radius and  
which are at least two in number.

4. (Amended) Implant according to claim 1, wherein the point angle of the cone-  
shaped portion is less than 20°.

5. (Amended) Implant according to claim 1, wherein each relief edge consists of  
two essentially plane relief surfaces which form an obtuse angle with each other.
